It is also unreasonable to make comparisions of the cast of Police in the City of St Louis, Cincinnatti, Chicago and Baltimore for it is a well established fact that cities of a densely populated character and covering less ground can be guarded by fewer men than a large territory having Press, and the Evangelical Pulpit are, to portions only that are thickly built upon as in the case of New Orleans.

The former city government endeavor ed by every means in its power to hinder the working and obstruct the usefulness of the Metropolitan Police, by the nonpayment of their assessment and by invoking the aid of Courts equally bitter in their hatred of the new system. In many instances mob violence, aided this antagonismby forcing the men from their posts seriously threatening to drive law and order from our very midst. But the Metropolitan Police has outlived all obstacles and the Board points with pride to the efficiency of the force as shown during the late election, when the peace and protection of all voters was maintained in a thorough and quiet manner, truly mangurating a new era in elections in this State.

We can see therefore, no reason why this unexpected and unjust attack has been made by the Mayor and Administrator of Public Accounts upon the Metropolitan Police. THIRD WARD SCHOOL BOARD. "SUCH FANTASTIC TRICKS."

The third ward Board of School Directors, after many an excruciating effort at devising most the approved method of embarrassment to the entrance of children to the schools of that ward, have at last arrived at the following complicated res-Single copy 5 c olution, which they print in the Republican of sunday last. "That all applications for admission to the public schools of this ward must be made to the commitvalent in space, first insertion \$1 50, and tee every Saturday, between the hours of 12 M. and 3 P. Hereafter pupils will only be admitted to the school every Monday."

If any evidence were wanting to con vince the mind, that this Board had utterly failed to comprehend the scope of their province and dudy: the importance of education to the masses, and its effect on the best interests of the State and the paramount necessity of making the approaches to the elementary schools as facile and attractive as possible, this resolution has fully supplied that lack.

In every civilized community at the present day the burden of the cry of the Philanthropist the patriot and the States man is, Education. The object and tendency of all the efforts of the honest shed light, to dispel darkness from the land, and gross darkness from the neople; and all, in harmony and sympathy with the cry of "Wisdom," are worthily imitating each other in their efforts, not only to furnish all possible advantages but to simplify and expedite accers to every source of knowledge and enlightenment. Governments, advancing with giant strides, in every department constituting and characterizing a high civilization, are most trembling alive to the necessity and importance of elevating the masses by education, and so strong in their solicitude so conscious are they of the power of knowledge, that they are making education compulsory, and inflicting penalties on parents who fail to cause their children to avail themselves of the educational advantages afforded.

But here in New Orleans, where the genius and institution of slavery, neces sitate men to "love darkness, because their deeds were evil," here where unhappily, the dreadful blight and shadow of that enormous curse still darkens and obscures too many minds; here in the lature and party of progress that gave third ward of this city, where there are rise to the Metropolitan Police, nor can thousands of ignorant and benighted we see the motive unless it be that greed children, the sons and daughters of ignorfor power so intal to true republican gov- ant and benighted parents of every gentlemen there have decided to regard for the year can always be supplied. erument. Why surround the pale of the school with so perplexing a performance to illiterate parents? What in the world has the "Committee" to do with a simple admission-or order to a Teacher to receive a pupil—the terms of the issuing of which are provided by law. Of this esult we have no fears. The Genius of Republicanism as now developed has succeeded so far, in spite of the most gigantic opposition which a fratricidal war could offer. Truth and Justice have so far prevailed, and if in the future we fail, either, because of the dishonesty and injustice of our own party, or of another treachery of those we are willing again to trust we must be content to again renew the struggle and again array ourselves on the battle field in the contention for the supremacy of Right, and Justice and

We are under the impression that the Republican has been mis-informed by his 'good authority." We knew the family in Kingston, Jamaica, where we were next door neighbor, and frequent visitor for some months. The Preston's are a Haytian family. THE EDITORIAL EXCURSION.

Three or four days ago a numerou excursion party, of some sixty Editors from Missouri, Kansas, and vicinity, ac companied by many ladies, arrived in the city. On Monday some twenty or thirty ladies and gentlemen of the party visited the Legislative halls. The House of Reppresentatives, paid the distinguished visitors the marked compliment of adjourning for "fifteen minutes," and during the recess, the majority of the party were invited to the Speaker's room where many introductions took place. In the Senate the same marked courtesy river excursion. We have no doubt that they will be delighted with the semi-tropical beauty and variety which will pre-sent themselves to the observers.

COLORPHOBIA

(From the Galveston Republican.) A colored man always commences

A white man or woman has only the ordinary "disagreements" that fall to the common lot of travelers to contend with. They may go over'a precipice in Mr. Ray offered the following resolution an express train, or be blown up on a steamer. These are accidents to which

all travelers are in common exposed. But in addition to these, colored people are exposed to inconveniences and dis-comforts, to which their fellow travelers are not liable : no matter how intelligent or cultivated a colored person may be : no matter how irreproachable in manner or faultless in appearance, if he exhibits in his face traces of African blood. ers, steamboat proprietors and railroad men, for his committal to the kitchen of a latel, the smoking car of a railroad, or the deck of a steamer. Let a colored traveler enter a town, in which he is un acquainted, where, perhaps, he has been compelled by necessity to go, though he might be able to buy the best hotel it contained, yet the proprietor would likely refuse to accommodate him with a bed

The late Alexander Dumas, with his wooly head, whose ability and high social position in France, even the Galveston News admits. Dumas, who has been the guest of the crowned heads of Europe and the idol of the literary world of been refused a seat at a kotel table in day one of the balloons was t

first in his tobacco-stained mouth and then in the butter, might object to his presence on account of his color.

It is painful to witness the embaras ment and humiliation, colored ladies, as tenderly reared as refined and educated as any of their sisters in the land, are subjected to in travelling from place to place. We have seen such, compelled to sit in a car, the atmosphere of which was thick with smoke, and the floors soaking with tobacco juice. We have known them ene conversation of white men, we cannot say gentlemen, who chose to come there to smoke and indulge in ribald jests they would not dare to utter before their wives, or sisters in the cars they had just

On the steamer we have seen colored ladies compelled to sleep upon the deck, or as an indulgence, upon the saloon or cabin floor exposed to the gaze of every passer by, whilst state-rooms were unoccupied and they at the same time able and willing to pay for them. There is an inconsistency about these things, that one would laugh at, did they not often cause such irritation. A white gentleman or lady will ride without any expression of annovance for miles, beside a colored person in a street ear; and yet we are told they cannot sleep in a stateroom next the same person, with an inch plank partition dividing them from each

This kind of injustice cannot last or ever. North, in some localities, it has almost disappeared. In the course of time it will also fade away in the South It will all the sooner disappear, if colored men, who have votes in Legislatures, will make an effort, when companies are seeking charters or endeavoring to renew them, to see that the rights of these colored fellow citizens are secured by some clause, inserted to effect that object.

We trust that some sweeping Federal enactment will give us our rights in public places and public conveyances. When you camplain to steamboat captains of ill-treatment, they lay the blame on the owners and express their regret, that their instructions compel them to subject you to annoyances. Go to the owners, and they lay the blame on the public. Appeal to the public, and they accuse the captains, conductors and owners. It seems no one is responsible. A Federal enactment would set this whole matter at rest all over the country, and might teach the class of gentlemen. just referred to, that the colored people

have some rights that white men are bound to respect.

MORE IS EXPECTED OF A WATCH THAN ANY KIND OF MACHINERY.

It must not only run ull day, but all night; n only on weekdays, but on Sundays and Holidays. It must run hanging up or lying down—upside down or right side up. Il must keep running when the wearer sits down or stand up. When he walks or rides. In fact, it is expected to do its duty at all times, in every place and in svery position.

A Genuine Waltham Watch

will fulfil all these requirements. I wound one a day, it will faithfully tick for you a hundred and twenty-six million times in a year, withou even requiring fresh oil all that time.

A Genuine Waltham Watch

CONTAINS

5 Spring, 9 wheells, 51 Screws, and 98 other parts aking alltogether 136 separate pieces.

All Genuine Waltham Watches have seven Jewels. / THE EXTRA JEWELLED HAVE ELEVEN JEWELS,

THE FULL JEWELLED HAVE PIPTERN JEWELS.

Every part of a Waltham Watch is made by nachinery, The machinery used in making the povement of a single watch coast over a Hun dred Thousand Dollars, yet we sell these Watches, in a solid Silver Hunting Case, for \$18. Th same watch could not be made by hand and finished as perfectly for TEN TIMES AS MUCH.

A Genuine waltham Watch s ihterchangeable, like a Springfield rifle, that is, any part of one Watch is exactly like the same part in another; and if ten Watches of 110..... We have sent out over Five Thousand of these Watches upon these conditions, and have only been asked to refund the money in three cases, and not one of these was on account of dissatis facton with the Watch, but because the parties needed the money more,

WE HAVE NO AGENTS, AND OUR PRICES ARE THE AME TO ALL. A RESIDENT OF OREGON OR TELAS CAN BUY A WATCH FROM US AND IT WILL COST HIS NO MORE THAN IF HE LIVED IN NEW YORK. ALL THIS IS EXPLAINED IN THE PRICE LIST.

Special Notice. We do not sell Walthan Vatches in any Imitation, Gilt, Plated, Oride, Filled Cases whatever (these are all other name for Brass or German Silver). The Walthau Watch is worthy of a solid Gold or Silver Case and we do not propose to sall it in any other.
